toolforge.contact@gmail.com

PROFESSIONAL SUMMARY

A highly ambitious and self-taught Full-Stack Developer with a strong grasp of modern web technologies including Next.js, React, and MongoDB. Skilled at building scalable, visually polished web applications with a focus on clean code and exceptional UI/UX.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (App Router), TypeScript, Tailwind CSS, Framer Motion, Redux, HTML5, CSS3
- **Backend:** Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs
- **Tools & DevOps:** Git, GitHub, Vercel, Netlify, Firebase, Figma
- **Core Strengths:** Rapid Learning, Problem Solving, Responsive Design, Independent Project Management

FREELANCE EXPERIENCE

Independent Full-Stack Developer - Freelance

2023 - Present

- Designing and developing custom web applications for various clients, focusing on performance and scalability.
- Implementing modern UI/UX patterns using Tailwind CSS and Framer Motion to increase user engagement.
- Building secure and efficient backend systems using Node.js and MongoDB to handle complex data structures.
- Managing the full project lifecycle from wireframing in Figma to final deployment on Vercel.

Web Development Specialist - Self-Employed

2022 - 2023

- Created multiple responsive landing pages and portfolios for small businesses and individual professionals.
- Optimized website loading speed and SEO, improving organic reach for client projects.
- Converted complex client requirements into functional and visually appealing web products.

FEATURED PROJECTS

ToolForge - Free Online Tools Platform

- Built a free browser-based tools site: unit/currency converters, word counter, password generator, image and PDF tools.
- Files are processed locally in the browser (no uploads); responsive UI, no sign-up. Live: khan-coder-31.github.io/toolforge

Modern E-Commerce Experience

- Developed a full-featured online store with seamless checkout and mobile-first responsive design.
- Integrated secure payment gateways and advanced product filtering.

Real-time Collaboration Tool

- Created a productivity app featuring instant messaging and shared workspaces using Socket.io.

EDUCATION

Secondary School Certificate (SSC)

Afridi Model School and College, Peshawar - Currently Pursuing

- Focusing on Mathematics and Computer Science.
- Dedicated self-learner of Full-Stack Web Development and Software Engineering.
